

Career-Technical Education Day at the Roundhouse!!

February 11, 2008

Visit the State Capital of New Mexico and share in our great democracy. Contact your legislator for a face-to-face meeting and prepare a display to present during the day with all who pass through the halls of the Roundhouse! Share your experiences and influences regarding your Career-Technical Education!!!

According to the U.S. Bureau of Labor Statistics, eighteen of the 20 fastest growing occupations within the next decade will require career and technical education!

Don't miss the Sunday Evening Event for your students! Make the trip educational as well!

The New Mexico Association of Career Technical Education and NM Career Technical Leadership Program will be co-sponsoring an event just for your students! We are lining up exciting and knowledgeable speakers that will present ways in which the CTE students of New Mexico can best be utilized in policy making decisions, how to present themselves to key business people and their own representatives, and an overview of the current bills and legislation. These CTE students will be our leaders of tomorrow and learning how to be an advocate for NM through this interactive training will aide them tremendously!

Refreshments / hors d'oeuvres will also be served, which is bound to be a hit!

Join us Sunday, February 10th from 7:00 p.m.–9:00 p.m. at The Lodge at Santa Fe to prepare your students for the next day!

the
Lodge
at Santa Fe
